All things matter... Big & Small!

Each year KPH spends hundreds of thousands of dollars on printing. Printing is essential to our business but consider these tips to help reduce wasteful spending.

- Only print things that you are willing to walk over to the printer and pick up. **Can anyone think of a printer where there are a bunch of printed pages sitting on the top with no owner?**
- We pay per page. Only print pages you need.
- Think before you print. What am I going to do with this after I print it out? Do I really need to print this?
- Proof read before you print so you don't have to print it multiple times.
- Pay attention to the printer you are printing to, so you don't pick the wrong one. **This protects cost and confidentiality.**
- Print double sided to reduce paper use. With a doublesided page, we still pay for 2 pages of ink but only 1 piece of paper.
